For hotel information contact the Hyatt Regency at (215) 928-1234 or go to www.hyatt.com. The Hyatt Regency is offering a special room rate of $189.00/night. Available for a limited time and rooms fill up quickly.

Shoulder and Elbow Update 2008 is a three-day conference for physical therapists, occupational therapists, athletic trainers, and physicians interested in learning the latest concepts and research related to evaluation, treatment, and rehabilitation of shoulder and elbow disorders.

Registration and Hotel Information:
This course is held during the annual Convention, which is strongly encouraged. Registrations received before October 12th will receive a discount. Of special note, registration for Shoulder and Elbow Update 2008 also includes all conference materials, continental breakfast each day, and two lunches.

Shoulder and Elbow Update 2008 will be held at the Hyatt Regency, Penn’s Landing, 201 South Columbus Blvd., Philadelphia, PA 19106.

For hotel information contact the Hyatt Regency at (215) 928-1234 or go to www.hyatt.com. The Hyatt Regency is offering a special room rate of $189.00/night plus tax for a single or double-occupancy. This rate is available for a limited time and rooms fill up quickly.

Course Description:
Shoulder and Elbow Update 2008 is a three-day conference for physical therapists, occupational therapists, athletic trainers, and physicians interested in learning the latest evidence based concepts and research related to evaluation, treatment and rehabilitation of shoulder and elbow disorders. Sponsored by the Sports Rehab Foundation, this innovative and comprehensive program features an integrated format of lectures, panel discussions, case study presentations, workshops, and small group discussions. This course also features a special in depth symposium on the latest advances in research and management of shoulder arthritis and proximal humerus fractures.

Course Objectives:
Participants should be able to:
• Use the latest evidence to conduct a complete evaluation of the shoulder and elbow, as well as document treatment outcomes.
• Understand and utilize the most current evidence in understanding the pathogenesis, diagnosis, and management of various shoulder and elbow disorders.
• Develop hands-on evaluation and treatment skills.
• Gain an in-depth knowledge of the recent advances and current research in pathogenesis, diagnosis, and management of shoulder arthritis and proximal humerus fractures.

Course Faculty:
Joseph Abboud, MD
JR Orthopaedics
John Baxi, PT
Physical Therapy
Rehabilitation
Associate and Columbia
University
Teresa Zebe, PT, DPT, OCS
Good Shepherd Penn Partners
Pedro K. Sereikli-Klein, MD
Penn Orthopaedic Institute Orthopedics
David Bovenizer, MD

Carol Stainberg, MD
Penn Orthopaedic Institute Orthopedics
Angela R. Tate, PhD, PT, OCS
University of Pennsylvania
Laura Walsh, OTR/L, CHT
Good Shepherd Penn Partners

Course Chairmen:
Gerald R. Williams, Jr., MD
JR Orthopaedics
Matthew L. Ramsey, MD
JR Orthopaedics
Martin J. Kelley, PT, DPT, OCS
Good Shepherd Penn Partners
David L. Glaser, MD
Penn Orthopaedic Institute Orthopedics
Mark J. Kelley, PT, DPT, OCS
Good Shepherd Penn Partners

Course Instructors:
The latest advances in research and management of shoulder arthritis and proximal humerus fractures are taught by nationally and internationally recognized experts. Each day will consist of three detailed sessions that will provide in-depth knowledge of the latest concepts and research related to evaluation, treatment, and rehabilitation of shoulder and elbow disorders. In addition, they are currently involved in research aimed at advancing the management of shoulder and elbow disorders. Members of this faculty have lectured on these topics locally, nationally, and internationally.

• Gain an in-depth knowledge of the recent advances and current research in understanding the pathogenesis, diagnosis, and management of various shoulder and elbow disorders.
• Understand and utilize the most current evidence in understanding the pathogenesis, diagnosis, and management of various shoulder and elbow disorders.
• Use the latest evidence to conduct a complete evaluation of the shoulder and elbow, as well as document treatment outcomes.

Course Objectives:
Upon completion of this course, participants will have:
• Gained an in-depth knowledge of the recent advances and current research in understanding the pathogenesis, diagnosis, and management of various shoulder and elbow disorders.
• Understood and utilized the most current evidence in understanding the pathogenesis, diagnosis, and management of various shoulder and elbow disorders.
• Understand and utilize the most current evidence in understanding the pathogenesis, diagnosis, and management of various shoulder and elbow disorders.
• Use the latest evidence to conduct a complete evaluation of the shoulder and elbow, as well as document treatment outcomes.

• Gained a working knowledge of the evaluation and treatment of various shoulder and elbow disorders.
• Understand and utilize the most current evidence in understanding the pathogenesis, diagnosis, and management of shoulder arthritis and proximal humerus fractures.
• Gain an in-depth knowledge of the recent advances and current research in understanding the pathogenesis, diagnosis, and management of shoulder arthritis and proximal humerus fractures.
